Field Visit Report -Department of Botany

Introduction:-

As per the guidelines and recommendation of the Savitribai Pule Pune university and the part of curriculum, the department of Botany under the guidance of Hon.Principal Dr. Kiran Rakibe sir, has organized the field visit to the Pond at taloshi, Taluka - Igatpuri, Dist-Nashik for the F.Y. and S.Y. Bology Students.

Objective:-

The objective of the field visit is, to let the student learn themselves the methodology of collection of Algae, Aquatic fungi and different types of Higher Plants that are found in the pond and nearby its area. Students have also learned the technique of preservation and carry them to the laboratory for further study.

The field visit was organized on 27-10-2023 and we departed at 11:00 am from the college campus. As the dam is 05 k.m. away from the college, we started walking toward the Dam. We reached the pond at 12:30 PM.

We had a Lunch at 1:00 PM and after that we we started heading toward the pond for our further study at 2: PM. After reaching the pond the student were guided about how to collect the sample and preserve them in the bottle as well as if any insect are found they should be collected in a plastic jar.

Field observation:-

In the pond we have found the algal colonies of Nostoc, Batrachospermum, Spirogyra, in the water body. Some Bryophytic plant like *Funaria*, *Riccia*, *Anthoceros* etc., Pteridophytic plants like *Adiantum*, *Nephrolepis*, some fungi like *Xylaria*, *Ganoderma* etc was found near the area of pond. Samples were brought to the college for further observation.
